Instructions:

1. Cut out the cover insert, on page 1, around the outer perimeter. Do not cut along the center.
2. Fold the cover insert in half, with the text on the outside.
3. Insert the cover insert in the CD case cover.
4. Cut out the tray insert, on page 2, around the outer perimeter.
5. The right-most long narrow title "tab", on the tray insert, is for CD case with a transparent tray. Remove this "tab" if the CD case has an opaque tray.
6. Fold the left and right long narrow title "tabs" to a 90 degree angle, away from the main tray cover portion. If the right-most "tab" is retained for a transparent tray, fold that "tab" 90 degrees again, away from the title "tab" next to it. The text should appear around the exterior of the folded cover, not the interior.
7. Remove the tray from the case.
8. Place the tray insert in the case.
9. Insert the tray, being careful that the title tabs are flat against the case.
10. Please appropriately discard this portion and the scrap bits of paper.

The Island of Dr. Moreau

H. G. Wells

The Island of Dr Moreau

The Island of Doctor Moreau is an 1896 science fiction novel written by H. G. Wells, addressing ideas of society and community, human nature and identity, religion, Darwinism, and eugenics.

When the novel was written in the late 19th century, England's scientific community was engulfed by debates on animal vivisection. Interest groups were even formed to tackle the issue: the British Union for the Abolition of Vivisection was formed two years after the publication of the novel. The novel is presented as a discovered manuscript, introduced by the narrator's nephew; it then 'transcribes' the tale.
